JUST A SHORT LETTER, TO OUR FRIENDS, OLD AND NEW:

Our Company is now operating as the MILE HIGH SEED COMPANY, P. O. Box 683, Grand Junction, Colorado, offering to you the same strains of High-Altitude-Grown Flower, Garden and Field Seeds that are so well and favorably known throughout the country.

The management has not been changed, as I am still at the head of our company and will continue to give you the best that is in me, backed by fifteen years of service at Grand Junction.

On November 18, 1939, we opened an up-to-date Retail Store at a new location, 118 North Fourth Street, former location of Prinster Brothers' City Market.

Truman Parks is still in charge of the retail department. He has had nine years service in our company. Come to Grand Junction and visit our retail store. You will find Mr. Parks always ready and willing to help you with your planting problems.

Robert Hill, manager of the cleaning plant and warehouse, has seven years experience cleaning, packing and testing seeds—further assurance that our MILE HIGH SEEDS will reach you in the best possible condition.

Garden seed prices are seldom changed throughout the season. Each item is marked, (Prepaid—or not Post-paid).

Field seed prices change with farm commodities. These prices will be found on the back of the enclosed order blank, and are not postpaid except in one-pound lots. Use this blank when ordering.

If you grow a large garden, or if you wish to buy large quantities of grass, clover, alfalfa or seed grain, be sure to write us for special prices. We're always glad to answer your letters.

Yours very truly,
NEAL PLAISTED.

A Beautiful Lawn With Mile High Lawn Mixture

Let us help you with your lawn problems. Perhaps you are planning a lawn on raw desert soil, or where you do not have an abundant water supply. To secure a satisfactory lawn under unfavorable conditions requires a special mixture of grass seed.

If you are interested in establishing a large tract of grass for a park, play ground or school ground, be sure you get our mixture of special grasses prepared to endure hard service.

Take advantage of our complete stock of many varieties of lawn grass seed and our years of experience mixing them for every purpose.

Call on us at our retail store, 118 North Fourth street, or write us fully, telling us your lawn problems.

We buy our grass seed in car lots and will be in position to quote special prices on large quantities of this seed. Don't forget we offer only MILE HIGH QUALITY in grass seed, as we do in all other seeds we sell. For prices on lawn grass seed, see enclosed price-list.

A stock of roses, shrubs, small evergreens and small fruit will be carried at our Retail Store, although they will not be listed here.
